# Construction Film Joining Tapes PE + PVC

## DAN100 “INSULTAPE” PE Tape

A 100 micron Polyethylene film coated with an aggressive rubber adhesive. Ideal for use in the construction, agricultural, horticultural, entertainment, HEVAC and other industrial markets. Excellent for joining Polyethylene based B&A film, silage films, general paper and plastic film joining and repair applications, steel and plastic rod bundling, binding and a thousand other general purpose applications.

Colours: Black / White / Green      Roll Lengths: 30m / 45m

## DAN130 “ALL-WEATHER” PE Tape

A clear polyethylene that is UV stabilised and coated with an acrylic adhesive. DAN130 offers excellent UV and moisture resistance. Ideal for outdoor applications to repair/reinforce plastic greenhouses, exterior binding and repair and surface protection.

Colours: Clear      Roll Lengths: 25m / 50m

## DAN210 Vine Tying Tape

A non-adhesive copolymer plastic for use in TAPENER tying dispenser/s. DAN210 is specifically designed for VINE TYING and supporting climbing plants.

Colours: Black      Roll Size: 11mm x 30m / 11mm x 60m

## DAN181 PVC Tape

A multipurpose PVC tape. Suitable for joining or repairing plastic sheeting and film, for dust sealing and reinforcing. Danco 181 is also used as general-purpose utility tape for a broad range of applications.

Colours: Grey / Black / White      Roll Size: 30m

Standard widths for most tape products are 18mm, 24mm, 36mm, 48mm, 72mm, 96mm and 144mm.

Custom slitting to your required width is available subject to consultation and approval with your local Danco® Sales Consultant.

DANCO self-adhesive tapes are successfully used in many fields of application to solve a variety of problems. Our catalogues give numerous examples as suggestions for your own problems. Each DANCO tape has been developed for a specific application. However, experience shows that, even for the same application, requirements can differ from case to case. Therefore, we suggest that you conduct tests to ensure that the DANCO tape you have in mind is suitable for your particular application. Our technical department and sales consultants will be pleased to assist you. All information and advice is given in good faith based on practical experience, but without any guarantee.
