About Barcode Products Limited

Barcode Products Limited is available for all your barcoding needs. We are one of just a few barcode specialists in New Zealand that supplies customers with mobile computing, barcode scanner, software and label printers, labels and ribbons and we have been since 1994.

Why Choose Barcode Products Limited:

- **Dedicated Staff Person**
One of our expert staff will work with you to identify your barcoding needs. The staff member will be your point of contact to handle any kind of enquiry and inquiries that you or your association may have.
- **Direct Liaison and access to Distributors**
We maintain vital relationship with the main suppliers and producers on barcode scanning, mobile computing and label printing. Barcode Products Limited is proud to be connected with direct Distributors of many brands. All this will make sure that you, as a client are getting the most suitable solutions for your needs.
- **Prompt Response of Enquiries and Emails**
We endeavour to respond to your emails and enquiries within of 24 to 72 business hours. Most of the time they are answered within 24 business hours. We appreciate your feedback on our services. We would love to hear enquiries about the new models of Barcode Printers, Barcode Scanners, Accessories or the things which are not shown on our site.
- **Easy Returns**
We accept returns for most new, unopened items within 30 days of delivery for a full refund on approval. We'll also pay the return shipping costs if the return is a result of our error i.e. you received an incorrect or defective item.

Best Customer Service and Support

We're 100% New Zealand owned and proud of the fact we have no allegiance with any provider so we have the capacity to give you 100% impartial options. We like to invest the time to understand your needs so that we can offer you an appropriate solution. We devote time to investigating new innovation and new items, so on the off chance that you can't see what you need on our site, please don't hesitate to ask.

Thank you.
