

# VIKING

EXTRACTION SPECIALISTS  
MANUFACTURING ENGINEERS

## TIMBER / PACKAGING HEAT TREATMENT OVENS

Heat treatment ovens for timber packaging to IPSP15

## WELDING FUME EXTRACTION

Fixed and portable fume extraction arms centralized welding fume extractions systems.  
Design - Manufacture - Installation.

## VK MARINE

From aluminium boat modifications, new builds and refit work, VK Marine capabilities are from combining the trade and engineering skills of Viking's core business enabling diversification into the marine industry. All aspects of aluminium fabrication is carried out either in house or dock side as required.

**VIKING**  
EXTRACTION SPECIALISTS  
MANUFACTURING ENGINEERS

Phone: 09 835 4090 Fax: 09 835 4070  
151b McLeod Rd PO Box 83 261  
Te Atatu South 0610 Edmonton 0652

**38 years  
manufacturing  
in New Zealand**

## DUST EXTRACTION

Reverse pulse bag filters  
Camfil Gold series collectors  
Cyclone and static filters  
Fans and rotary valves  
Design build - project management

## SPRAY BOOTHS

Kit set open face booths  
Auto spray lines  
Heated spray and bake booths  
Heated drying rooms  
Paint work stations  
Spray plenums  
designed manufactured to AS/NZ 4114

## V-DUCT

Modular ducting components  
pipes-bends-clamps-reducing  
bends  
diverter valves - dampers and  
more

## VIKING TIMBER HEAT TREATMENT PLANTS

Heat treatment ovens for  
wood packaging  
to IPSP 15 regulators  
Stand alone ovens - container  
refit systems

## MODULAR REVERSE FLOW FILTER SYSTEMS

For installation into continued operating plants and machinery which require continued extraction rates, or single shift manufacturing. Designed to separate large volumes of coarse through to fine materials.

Filter cleaning is achieved by **reversing air flow** through the out side of the filter sleeve, removing dusts deposited on the inside surface.

These systems operate under positive pressure. Modular type construction with ability to **add as you grow** with standard modules available.

## V-DUCT MODULAR DUCTING

Viking's very own ducting range consists of an extensive array of modular ducting components ideal for off-the-shelf ducting solutions. Ranging from 100mm to 500mm, traditionally, but Viking stress that any size ducting can be made to suit a client's needs

## SPRAY BOOTHS

Viking is the largest manufacturer of spray painting booths in New Zealand. All sizes, temperatures and shapes can be made to order from the market leaders or the Viking kit sets can be purchased off the shelf. The kit sets range from 1m wide to 4m wide and can be freighted nationwide and easily installed (compliance certificate supplied). Viking also supply a range of 'multi-cure booths' with spray and bake temperatures ideal for every industry.
